PROFESSIONAL SUMMARY

Frontend Engineer with **5+ years of total web development experience**, including **4+ years building production React.js and Next.js applications**. Specialized in scalable, high-performance, and maintainable frontend architecture using React, JavaScript (ES6+), TypeScript, and modern UI frameworks. Proven track record delivering enterprise dashboards, real-time trading platforms, and AI-driven tools, and collaborating cross-functionally in Agile, fully remote teams to ship production-grade features aligned with business objectives.

TECHNICAL SKILLS

Frontend Development: React.js, Next.js, JavaScript (ES6+), TypeScript, Context API, React Hooks, Functional Components

State & Forms: Redux, Redux Toolkit, React Hook Form, Zod (schema validation)

Performance: Performance Optimization, Code Splitting, Lazy Loading, Web Vitals

Version Control & Workflow: Git, GitHub, CI/CD Pipelines, Agile / Scrum

UI & Styling: Tailwind CSS, Material UI, Bootstrap, Styled-Components, Framer Motion, Responsive Design, Cross-Browser Compatibility

Data & APIs: RESTful APIs, JSON, Axios, Fetch API

Build & Tooling: Webpack, Babel, Vite, NPM, Yarn, ESLint, Prettier

PROFESSIONAL EXPERIENCE

Frontend Developer / Engineer

Revise — Mumbai, India (Remote)

May 2022 – Present

- Designed and developed complex, reusable React components for enterprise-scale applications, including real-time trading platforms and analytical dashboards with advanced data visualization.
- Developed a Next.js-based AI-driven application enabling users to query and retrieve detailed insights on specific books and IPC (Indian Penal Code) sections through natural language.
- Currently architecting a mobile application that converts a user's local machine into a virtual development environment, enabling complete developer workflows from mobile, including AI-assisted code changes, commit management, and agent-driven task execution.
- Led frontend architecture decisions using React Hooks, state management patterns, and reusable component design; optimized performance by reducing re-renders, implementing memoization, and improving bundle size.
- Collaborated with backend teams to integrate REST APIs, mentored junior developers, and conducted code reviews to maintain code quality standards across a fully remote, cross-functional team.
- Key Achievements:** Delivered multiple production releases with zero critical defects; improved page load performance through code-splitting and lazy loading.

Software Developer

Chools Consultancy Services — Bengaluru, India (Onsite)

Oct 2020 – Jan 2022

- Developed and maintained Learning Management System (LMS) websites on WordPress, enabling structured course delivery, learner progress tracking, and administrative management.
- Built and customized WordPress themes and plugins to meet client-specific requirements for e-learning platforms.
- Delivered multiple production websites using pure HTML, CSS, and JavaScript — building responsive, cross-browser-compatible interfaces from scratch.
- Collaborated with clients and design teams to translate wireframes and requirements into polished, functional web pages.

PROJECTS

Web3 Trading Dashboard *React.js, JavaScript (ES6+), Web3.js, Ethers.js, MetaMask, REST APIs*

- Built a Web3-enabled React dashboard integrating MetaMask for wallet authentication, transaction signing, and balance retrieval, with real-time trade execution status and smart contract interactions.
- Handled network switching, gas fee estimation, and error states with a focus on secure frontend practices and responsive UI design.

API Key Management Dashboard *React.js, JavaScript (ES6+), REST APIs, Axios*

- Designed a dashboard for managing API keys with full CRUD operations, role-based access controls, and real-time usage and consumption metrics.
- Implemented robust client-side validation and error handling with reusable components and consistent state management.

Business Portfolio & Admin Dashboard *React.js, JavaScript, Responsive Design*

- Built a custom portfolio website and admin dashboard for a photography studio client to manage galleries, business content, and client information.
- Delivered fully responsive layouts across mobile, tablet, and desktop, and optimized images and UI performance for faster load times.

EDUCATION

Bachelor of Engineering — Electronics and Communication Engineering

Visvesvaraya Technological University, 2019
